Graduate/Undergraduate RA Positions Available

1. How to Apply (all)

    1.1 Fill out an online application [link]

    1.2 Send a <u>cover letter and CV</u> to Prof. Hahn (swhahn@snu.ac.kr) and Lab (snuhahnlab@gmail.com) * Do not send your transcript to the lab

2. Graduate RA

Interested applicants should check current research topics and projects listed in the website before applying.

2.1. Requirements

    i. B.A. or B.S. in Psychology or relevant fields

    ii. Courses on Introductory Psychology, Cognitive Psychology, Statistics, and Research Methods in Psychology

2.2. Desired Skills

    i. Experience with statistical software and programming languages (R, Python)

    ii. Ability to take initiative, but also follow a research/project plan

    iii. Ability to work well as a part of a team

3. Undergraduate RA

Each URA will receive an one-on-one training in multifaced research projects. Students interested in a summer internship (June to Aug) and visiting students should also follow the same procedure. If you are a senior student and considering a graduate school, we strongly encourage you to work as an RA for at least 3 months before applying.

3.1. Requirements

    i. Commitment of at least 12 hours/week and a semester

    ii. Ability to take initiative, work as a team, and meet deadlines

    iii. Proficiency in English (preferred)

3.2. Responsibilities

    i. Participant recruitment and scheduling

    ii. Data collection

    iii. Data preprocessing (we mainly use python)

    iv. Literature review

    v. Lab maintenance

    vi. Attend lab meetings and studies
